

MULTI-TECHNICAL MAINTENANCE TECHNICIAN

Operating since 2004, MT SOLUTIONS is a B2B full-service company – with no less than 7,000 clients and 2,400 partners across France – providing multi-technical building maintenance and facility management (all trades covered), including sales floor and office layout solutions.

Job description

Engineering disciplines / Maintenance / Energy – Confirmed Maintenance Technician

As our business is growing, we are hiring a confirmed Multi-Technical Maintenance Technician.

Reporting to the Technical Manager and collaborating with a maintenance call centre, your missions will consist of:

- Locating and diagnosing failures and anomalies in a multi-technical context.
- Completing the rehabilitation of a site.
- Ensuring proper functioning of facilities.
- Making technical decisions.
- Writing internal documents.
- Building customer relationships.
- Applying safety rules and procedures.

Required profile

- You have a relevant technical education in maintenance (HND or equivalent), including plumbing, electricity, locksmithing or installation of metal shutters. You have developed a customer-oriented mindset, combining pragmatism, common sense and positivity.
- Your analytical skills, your sense of anticipation, your interpersonal skills as well as your effective listening skills, will help you succeed in this position.
- You are familiar with the work organisation of an operation (order, reporting...).
- You are mobile, responsive, solicitous over making yourself available (on-call hours) as well as client-oriented, combining pragmatism and common sense.
